**Statement of CPNI Procedures and Compliance  
For 2007  
Pannon Telecom, Inc.**

Pannon Telecom, Inc. is a small long distance reseller. We do not use or permit access to CPNI to market any telecommunications or non-telecommunications services. Our employees have been trained not to use CPNI for marketing purposes. Should we elect to use CPNI in any future marketing efforts, we will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

We have instituted authentication procedures to safeguard the disclosure of CPNI over the telephone and to protect against attempts by third parties to gain unauthorized access to customer CPNI. Our customer service representatives will only discuss our customers' bills once the customer has specifically identified and provided the information in question. Alternatively, we will call the customer back at the phone number of record or mail to the address of record. Our customer service representatives receive annual training regarding CPNI rules and internal compliance procedures.

We do not disclose CPNI on-line. If we elect to do so in the future, we will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

When changes to customer information are requested, customers are notified by mail of the requested change, which is sent without revealing the changed information or sending the notification to the new account information.

We do not have any retail locations and do not disclose CPNI in-store.

We have not had any attempts by third parties to gain unauthorized access to client information and therefore have no records to date of such breaches. However, we have procedures in place to notify law enforcement in the event of a breach of customers' CPNI and to ensure that customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement.

We have not taken any actions against data brokers in the last year.

We have not received any customer complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI in calendar year 2007.

We do not have any information with respect to the processes pretexters may use to attempt to access CPNI.
